

Style upgrade

Mayer Brown decided to update its flexible space, which was installed by Style 12 years previously, with the latest operable wall technology. Working with MCM Architecture and contractor Overbury, Style installed two semi-automatic Variflex partitions and three Skyfold vertical-rising, fully automatic systems, both taken from the comprehensive DORMA range of operable walls. Mayer Brown visitors and staff now enjoy outstanding acoustic privacy between divided areas of 52dB Rw for the Variflex systems and 59dB Rw for the Skyfolds, ensuring presentations, lectures and speeches can run concurrently and undisturbed.
