

ADAPTABLE BOARDROOM FOR HIGH-SPEC SCOTTISH HEAD OFFICE

STYLE

Rathbones is part of Rathbones Group, one of the UK's largest and longest-established wealth management firms. Reflecting a growing presence in Scotland, the company recently

relocated its Edinburgh offices to 10 George Street, delivering a modern and enhanced environment for employees and visiting clients. Bringing over 20 years of partitioning expertise to the refurbishment project, Style worked closely with architect firm, Form Design Consultants, and contractor, AKP Scotland, to create flexible space in the main boardroom. A Dorma Hüppe Variflex ML100 semi-automatic moveable wall system allows the impressive boardroom to be quickly divided into two separate meeting areas, whilst a second Variflex can be moved into position to create a breakout room. Style's final partitioning solution offers the ability to provide one large conferencing suite, a boardroom plus breakout area, or two meeting rooms with a breakout facility. Reflecting the inviting yet sophisticated interior decor, the walls are finished in a combination of contemporary Kvadrat fabric and dark walnut laminate.
