Birmingham head office's moveable wall creates flexible meeting room

St. Modwen is a logistics and housebuilding developer with a rich 30-year history.

The company operates across two dedicated business units: St. Modwen Homes and St. Modwen Logistics, both of which are active across England and South Wales and aligned to structural growth trends.

At St. Modwen's head office in Birmingham, Style worked with contractor, Claremont, to offer flexibility in the meeting and training room through the installation of a moveable wall.

A Dorma Huppe Variflex solid moveable wall was chosen as the best solution, with an impressive 55dB acoustic rating which enables meetings and training sessions to take place either side of the wall without any sound interference.

With a chic, white finish, the wall complements the simple, clean interior styling of the room and, thanks to the quality of all Dorma Huppe moveable wall solutions, it can be opened and closed smoothly and effortlessly to divide the space when required.

"As the UK's market leading specialist, we offer a range of moveable, folding and partitioning walls for all requirements and budgets," explained Steve Williams, Style's sales director for the Midlands.

"This is a great example of a practical solution that offers St. Modwen staff the ability to change the use of the space multiple times a day, if required, and get the most out of their meeting and training room by being able to cater for gatherings of different sizes."

Style is the exclusive UK partner to Dorma Huppe, Skyfold an SWG. The company has won the prestigious FIS Contractors Gold award a record 12 times, and leads the way with sustainable moveable wall solutions which is of importance to anyone seeking solutions for BREEAM, LEED and SKA.
