

Xtreme Karting in Falkirk chooses Style for its folding wall

At Xtreme Karting in Falkirk, Style was asked to create flexibility in the room where corporate events and private parties are hosted.

By installing a simple folding wall, it offers Xtreme the ability to host more than one event at the same time, improving the functionality of their hospitality space.

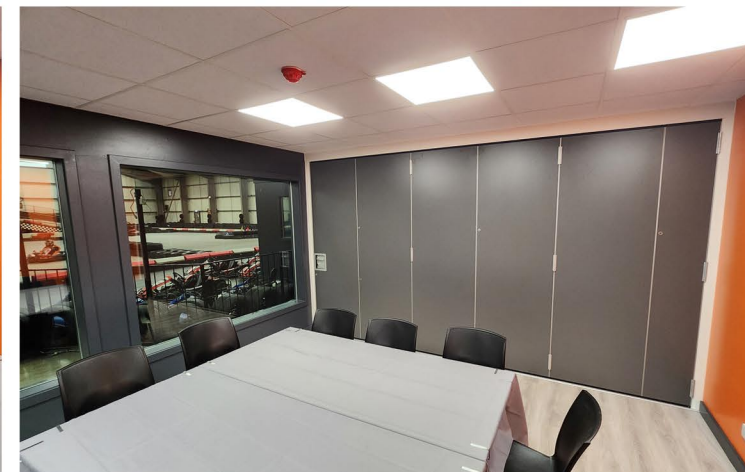

Style installed a Stylefold 120 folding wall in an anthracite grey laminate finish. This easy to manoeuvre wall has a 42dB acoustic rating which minimises noise from the other side and offers high levels of privacy.

With a large window overlooking the track, guests can watch the Karting while enjoying food and drink, and when larger parties are booked the wall can be quickly folded away to offer a sizeable room for entertaining.

“This is a simple, yet ideal solution for Xtreme Karting,” said Angela McGowan, sales director at Style Scotland.

“The folding wall can be very quickly put into position, and the 42dB acoustic rating offers a really good level of privacy when concurrent events are being hosted.”

Style is the UK market leader and exclusive partner to Dorma Huppe, Skyfold and SWG offering a wide range of moveable, folding and sliding walls for all requirements and budgets.
